- [Bathtub refinishing](#) requires skills and expertise to produce high-quality results.
- If you have no experience with **bathtub refinishing**, then doing it on your own might produce undesirable results.

## Disadvantages of Bathtub Refinishing

- Do-it-yourself (DIY) refinishing projects end up costing more in the end.
- If the stripping agents are not properly applied, then replacing your bathtub is the only option.

## Most DIY Jobs are Redone

- Most DIY refinishing jobs are redone, thereby increasing the cost of refinishing.
- Do not try to perform refinishing jobs by yourself if you are not experienced.
- It is good to hire a professional to achieve desirable and long lasting results.

## Bathtub Refinishing in Westchester, NY

- **Perma Ceram, a bathtub and tile refinishing contractor in Westchester, NY** has skilled professionals who perform refinishing jobs.
- If you need an experienced **bathtub refinisher**, [contact](#) refinishers at Perma Ceram.
