Your [fiberglass bathtub](#) may lose its shine because of harsh and abrasive cleaners. The fixtures might develop cracks, resulting in leaks. Removal and replacement of the existing fixtures can be difficult and expensive. Chips and cracks in bathtub fixtures can be repaired without replacing them.

How Repairs are Made

- **Professional bathtub repair specialists** use waterproof resins to fill cracks and chips on a bathtub.
- After filling, acrylic enamel coatings are applied with an air brush.

Advantages of Fiberglass Bathtub Repair and Refinishing

- Fiberglass bathtub repair and refinishing can be done without replacing the fixtures.
- Can save up to 75% over the cost of removal and replacement.
- You can change the color of your bathtub without replacing it.

- You can save a lot of time.
- After repair, your fiberglass bathtub will look even better than when you first installed it.
- The refinished bathtub can last for many years without further repairs.

Fiberglass Bathtub Repair Service in Westchester, NY

- If you want to repair or refinish your bathtub, then you need to contact a professional bathtub repair specialist.
- **Perma Ceram**, a **fiberglass bathtub repair contractor** in **Westchester, NY** has over 30 years of experience providing bathtub repair services.
